## Powder Technology Application Selected Peer

**recent technology of powder metallurgy and applications** - application examples in our company are introduced. 1.1 process and features of powder metallurgy powder metallurgy (p/m) is a materials processing technology to create new materials and parts by diffusing different metal powders as raw ingredients through the sintering process. products are created by p/m using the basic process shown in figure 1. the features of p/m can be seen in the ... **technical information 1360: sipernat® and aerosil® - an ...** - 3 introduction drying, conveying, dosing and various other ways of powder-handling are everyday's business in the chemical, food, feed and pharmaceutical industry. **binding mechanisms in selective laser sintering and ...** - binding mechanisms in selective laser sintering and selective laser melting prof. dr. ir. j.p. kruth1, ... technology selective laser melting (slm) - is used as well for prototyping, tooling and manufacturing purposes. this widening of applications is caused mainly by the possibility to process a large variety of materials, resulting in a broad range of physical and mechanical properties. this ... **"metallic part fabrication using selective inhibition ...** - 1 metallic part fabrication using selective inhibition sintering (sis) behrokh khoshnevis, mahdi yoozbashizadeh, yong chen daniel j. epstein department of industrial and systems engineering **from manual to robotic coating - nordson** - convinced welco that this application technology was the best choice due to the highest degree of process control and reduced powder consumption. individual solution nordson was selected as the new powder booth supplier based on the favorable test results and the ability to develop a customized solution. the booth had to provide as much freedom of movement as possible for the robots ... **fact sheet use of nanomaterials in coatings** - fact sheet. use of nanomaterials in coatings . 1. description of application. 1.1 . products and purpose of using nanomaterials1. automobiles, planes, ships, machinery, facades and the interior of build- **development of low-iron-loss powder magnetic core material ...** - a low-iron-loss powder magnetic core material for high-frequency applications with characteristics superior to ferrite or general-use dust cores previously used in these applications.(3),(4) in this study, the various characteristics of the developed material and result of application to power coils are reported. 2. current technologies aimed at development objectives and issues from the ... **casting technology - fraunhofer** - from ideas to products with our core competence casting technology, the fraunhofer ifam supports industrial clients in transforming an idea from first prototype to ready-to-use product through casting. **materials and technologies for automotive use** - ucts and technologies to automotive industry. this report first introduces new high strength steel products which contribute to reduction of automobile weight and improvement of crashworthiness, coated steel products for extended automobile life, and evaluation and application technologies of steel products. in addition, several other products are also introduced, such as stain-less steel ... **case study: manufacturer of commercial & residential ...** - equipment, they selected gema for their new powder line expansion project. upon reviewing available technology in the industry, they recognized that gema's superior application and booth airflow technology allowed them to maximize their application consistency and repeatability. also as a part of their evaluation, they examined overall application efficiency and service support. keys to ... **2010 doe vehicle technologies program review** - 2010 doe vehicle technologies . program review . stabilized lithium metal powder, enabling material and revolutionary technology for high energy li-ion batteries. this presentation does not contain any proprietary, confidential, or otherwise restricted information. doe amr 2010 2 • project start date: may 1st, 2009 • project end date: april 30th, 2012 • 35% complete: • barriers ... **high-power-density inverter technology for hybrid and ...** - high-power-density inverter technology for hybrid and electric vehicle applications takashi kimura ryuichi saitou kenji kubo kinya nakatsu hideaki ishikawa kaname sasaki overview: green vehicles have become familiar sights on the road in recent years, with growing sales of hev's and the arrival of the first mass production bev's. with environmental regulations on co 2 (fuel economy) and ... **industrial solutions - wagner group** - industrial solutions ... application as many powder coatings (e.g. effect powder coatings) are not suitable for the tribo process. - + high voltage cascade powder-/ air mix high voltage electrode charged powder particles grounded part powder-/ air mix charged powder particles grounded part tribo powder coating the tribo process is based on frictional charging. in this case, the fluidized ...
